

Safety Data Sheet

Styrene Acrylic Copolymer Harmonized System

1. IDENTIFICATION

Product identifier:

Product Name:

Resirene CET®

Trade Name:

CET® 116, CET® 123, CET® 130

Chemical Family:

Thermoplastic Resin

Alternative Names

Styrene Acrylic Copolymer, SMMA

Synonyms

Copolymerized Styrene and Methyl Methacrylate

Relevant identified uses of the substance

Recommended use (s)

Thermoplastic Resin for extrusion and injection molding.

Restrictions on use

Industrial and professional use.

Manufacturer Details

Manufacturer name:

Resirene, S.A. de C.V.

Address:

Carretera Federal Puebla-Tlaxcala Km. 15.5
Xicohtzinco, Tlaxcala 90780, México

Phone Number:

Tel. +52 (222) 223 3175 / 78 - USA Toll free 1866 372 3470
Fax. +52 (222) 281 0130
www: resirene.com.mx/en/
e-mail: safety@resirene.com

2. HAZARDS IDENTIFICATION

GHS Classification	Not Classified
Label Elements	Not applicable
Other Hazards	Not applicable
EC No 1272/2008:	This product is not classified as dangerous according to Regulation (EC) No 1272/2008
Directive 67/548/EEC:	This product is not classified as dangerous according to EU Directive 67/548/EEC
EC No 1907/2006 EG	This product complies REACH Regulation (EC) No 1907/2006
Emergency Overview	Product is an inert solid, in pellet form with no odor. This product is not considered flammable according to OSHA, but will burn on prolonged exposure to flame or high temperature. Vapors and fumes released during thermal processing may be irritating to the eyes, skin and respiratory system. Contact with molten material may cause thermal burns. Slipping hazard.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Substance Name	CAS Reg. No.	Weight (%)	CARCINOGEN OR TERATOGENICS
Styrene-acrylate copolymer	25034-86-0	>99	NOT

The product does not contain dangerous substances above limits that need to be mentioned in this section according to applicable legislation.

4. FIRST AID MEASURES

Inhalation:	Remove the affected person to a source of fresh air and keep calm. Provide medical aid.
Ingestion:	Rinse mouth and then drink plenty of water. Remove dentures (if there are). If difficulties occur: Seek medical attention. If swallowed, seek medical attention. Do not induce vomiting unless directed to do so by medical personnel. Single dose oral toxicity is extremely low. No hazards anticipated from swallowing small amounts incidental to normal handling operations.

Skin Contact	At ambient temperatures: Essentially nonirritating to skin. Mechanical injury only. Skin absorption is unlikely due to physical properties. The melted product can cause severe burns. Areas affected by molten material should be quickly placed under cold running water. Do not remove the product from the skin without medical assistance. Burns caused by molten material require hospital treatment
Eye contact:	Flush eyes with plenty of water. Remove contact lenses, if present and easy to do. If irritation develops, seek immediate medical attention.
Note to physician:	No specific treatment. Treat symptomatically.

5. FIRE FIGHTING MEASURES

Suitable extinguishing media:	Water, foam. In case of small fires: dry extinguishing media, carbon dioxide, sand.
Specific hazards:	Under fire conditions polymers decompose. The smoke may contain polymer fragments of varying compositions in addition to unidentified toxic and/or irritating compounds. Hazardous combustion products may include and are not limited to: carbon dioxide, carbon monoxide, trace amounts of styrene and methyl methacrylate
Other flammability information:	Dense smoke is emitted when burned without sufficient oxygen. Mechanical handling can cause formation of dusts. To reduce the potential for dust explosion, do not permit dust to accumulate.
Firefighting instructions:	Keep people away. Isolate fire area and deny unnecessary entry. Cool surroundings with water to localize fire zone. Hand held carbon dioxide or dry chemical extinguishers may be used for small fires. Soak thoroughly with water to cool and prevent re-ignition.
Special protective equipment:	Wear positive-pressure self-contained breathing apparatus (SCBA) and protective firefighting clothing (includes firefighting helmet, coat, pants, boots, and gloves). If protective equipment is not available or not used, fight fire from a protected location or safe distance.
Further information:	Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions:	No action shall be taken involving any personal risk or without suitable training. Pellets or beads may present a slipping hazard. Sources of ignition should be kept well clear. Do not breathe dust.
Environmental precautions:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Large spill:	Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labeled waste container.
Small spill:	Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container.

7. HANDLING AND STORAGE

Handling:	Put on appropriate personal protective equipment (see section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Do not ingest. Do not breathe dust. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. Avoid generation of dust. Use explosion-proof equipment and non-sparking tools/utensils. Avoid open flames. Remove all sources of ignition. Ground all equipment.
Storage:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. Never stack pallets more than two high to prevent the risk of them falling over.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Personal protective equipment

Respiratory protection:	Breathing protection if dusts are formed. Use filter type A-P2 according to OSHA Standard - 29 CFR: 1910.134
Hand protection:	Use additional heat protection gloves when handling hot molten masses (Glove material: Leather).
Eye protection:	Safety glasses with side-shields (frame goggles) according to OSHA Standard - 29 CFR: 1910.133
Body protection:	Body protection must be chosen depending on activity and possible exposure, e.g. apron, protecting boots, chemical-protection suit.
General safety and hygiene measures:	Avoid contact of molten material with skin. Avoid inhalation of dusts/mists/vapors. Eye wash fountains and safety showers must be easily accessible. Handle in accordance with good industrial hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state:	Pellets/granular solid.
Color:	Colorless
Odor:	Odorless/Weak
Melting Point:	110 °C (230 °F)
Flash Point:	Not applicable
Specific Gravity:	1.08 – 1.09 (Water =1)
Solubility in water:	Insoluble

10. STABILITY AND REACTIVITY

Stability:	The product is stable under normal use conditions for shock, vibration, pressure or temperature.
Conditions to Avoid:	Avoid extreme heat. Avoid all sources of ignition: heat, sparks and open flame.
Substances to avoid	Strong oxidizing agents
Hazardous reactions:	The product is chemically stable. In case of dust formation (Fine dust): danger of dust explosion
Hazardous Decomposition Products:	Monomers (styrene, methyl methacrylate), carbon monoxide, carbon dioxide, smoke. Gaseous products of degradation can be given off if the product is greatly overheated.

11. TOXICOLOGICAL INFORMATION

Potential acute health effects:	No known significant effects or critical hazards.
Potential chronic health effects:	No known significant effects or critical hazards.
Mutagenicity:	No known significant effects or critical hazards.
Teratogenicity:	No known significant effects or critical hazards.
Developmental effects:	No known significant effects or critical hazards.

12. ECOLOGICAL INFORMATION

Movement & partitioning:	No bioconcentration is expected because of the high molecular weight (MW>1000). In the terrestrial environment, material is expected to remain in the soil. In the aquatic environment, material will sink and remain in the sediment. There is no evidence of aquatic toxicity. Not toxic to sewage organisms.
Degradation & persistence:	This water insoluble polymeric solid is expected to be inert in the environment. Surface degradation is expected with exposure to the sunlight. No appreciable biodegradation is expected.
Ecotoxicity:	Not expected to be acutely toxic, but pellets, may mechanically cause adverse effects, if ingested by waterfowl or aquatic life.

13. DISPOSAL CONSIDERATIONS

DISPOSAL: DO NOT DUMP INTO ANY SEWERS, ON THE GROUND OR INTO ANY BODY OF WATER. All disposal methods must follow all Federal, State/Provincial and local laws and regulations.

Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the responsibility solely of the waste generator.

RESIRENE, S.A. DE C.V. HAS NO CONTROL OVER THE MANAGEMENT PRACTICES OR MANUFACTURING PROCESSES OF PARTIES HANDLING OR USING THIS MATERIAL. THE INFORMATION PRESENTED HERE PERTAINS ONLY TO THE PRODUCT AS SHIPPED IN ITS INTENDED CONDITION AS DESCRIBED IN MSDS SECTION 3 (Composition/Information on Ingredients).

FOR UNUSED & UNCONTAMINATED PRODUCT, the preferred options include sending to a suitable incineration plant/waste disposal site.

Resirene's Customer Information Center telephone: +52 (222) 223 3175 / 78, or within USA Toll free 1866 372 3470, or within México Toll free 01 800 RESINAS for further details.

14. TRANSPORT INFORMATION

U.S. Department of Transportation (D.O.T.):	This product is not regulated by D.O.T. when shipped domestically by land.
Canadian TDG Information	This product is not regulated by TDG when shipped domestically by land.
European Union	This product is not regulated.
IATA	This product is not controlled by IATA for aerial transport.

15. REGULATORY INFORMATION

(Not meant to be all-inclusive—selected regulations represented)

NOTICE: The information herein is presented in good faith and believed to be accurate as of the effective date shown above. However, no warranty, express or implied is given. Regulatory requirements are subject to change and may differ from one location to another; it is the buyer's responsibility to ensure that its activities comply with federal, state or provincial, and local laws. The following specific information is made for the purpose of complying with numerous federal, state or provincial, and local laws and regulations. See other sections for health and safety information.

U.S. REGULATIONS

SARA HAZARD CATEGORY: This product has been reviewed according to the EPA "Hazard Categories" promulgated under Sections 311 and 312 of the Superfund Amendment and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:

Not to have met any hazard category

TOXIC SUBSTANCES CONTROL ACT (TSCA):
 TSCA Inventory: listed; EPA flags XU
 TSCA HPVC: not listed

OSHA HAZARD COMMUNICATION STANDARD:
 This product is not a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

California Proposition 65:
 THIS PRODUCT(S) CONTAINS A CHEMICAL(S) KNOWN TO THE STATE OF CALIFORNIA TO CAUSE CANCER AND BIRTH DEFECTS OR OTHER REPRODUCTIVE HARM.

CANADIAN REGULATIONS

WHMIS INFORMATION: The Canadian Workplace Hazardous Materials Information System (WHMIS) Classification for this product is: This product is not a "Controlled Product" under WHMIS.

E. U. REGULATIONS

European Inventory of Existing Commercial Chemical Substances (EINECS): The components of this product are on the EINECS inventory or are exempt from inventory requirements.

EC Classification and User Label Information: This product is not classified as dangerous according to EC criteria.

16. OTHER INFORMATION

Date of previous issue: June 2018
Version: 5.2

- Changes made to last version:
- New format according Harmonized System

HMIS Ratings:	Health: 1 Fire: 1 Physical Hazard: 0 <i>Hazard Scale: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe * = Chronic Hazard</i>
NFPA Ratings:	Health: 1 Fire: 1 Physical Hazard: 0 <i>Hazard Scale: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe</i>

The information contained in the Safety Data Sheet is at the date of its issuance to the best of our knowledge correct according to the data available to us. The information is meant as a guideline for safe use, handling, disposal, storage and transport of products and does not imply any warranty (not implied nor explicitly) or specification. The Supplier shall to the extent permitted by law not be liable for any error or incorrectness in the information attend in this Safety Data Sheet. The information relates exclusively to the specified products, which may not be suitable for combination with other materials or use in processes other than those specifically described here.
