

**Re: Materials of Animal Origin, Bovine Spongiform Encephalopathy (BSE) and Transmissible Spongiform Encephalopathy (TSE)**

Please be advised that the product listed below:

General Purpose Polystyrene (GPPS): **Resirene HH-101, HH-103, HH-104, HH-108, HF-555 and HF-777**

High Impact Polystyrene (HIPS): **Resirene® 2210, 4220, 5470, 6110, 6420, 6470 y 7600**

Styrene-Acrylic Copolymers (SMMA): **CET® 116, CET®123, CET®230, CET® 240, CET® 250, CET® 265, CET® 231 DB, CET® 241 DB, CET® 251 DB**

Are manufactured from referenced products of petrochemical origin and not from cattle, sheep, or goat, so our products do not contain the TSE transmitter. The transmission of animal spongiform encephalopathy agents via the mentioned plastics is extremely improbable. We do not specifically run any analysis on our raw materials or products to measure for these substances.

The information provided herein is accurate and reliable as of the date indicated above and is presented in good faith. Since conditions of use and applicable regulations may vary by location and may change over time, the recipient is responsible for determining the suitability of this information for their specific use. As Resirene has no control over the manner in which this information may ultimately be used, all liability is expressly disclaimed, and no warranty, express or implied, is provided or to be inferred.
