

Re: ROHS & REACH ANNEX XVII COMPLIANCE

Regarding the safety of Pigmented Polystyrene (**PIG**) manufactured by Resirene S.A. de C.V., please be advised that, based on the information provided by our raw material suppliers, the material **PIG 6110 1339 BCO** complies with Commission Directive 2011/65/EU (last amended by Directive 2024/1416), relating to the restriction of the use of hazardous substances in electrical and electronic equipment (commonly known as **RoHS**).

The product is free of, or does not exceed the maximum permitted levels of, the following substances: lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB), polybrominated diphenyl ethers (PBDE), and the four phthalates: bis(2-ethylhexyl) phthalate (DEHP), benzyl butyl phthalate (BBP), dibutyl phthalate (DBP), and diisobutyl phthalate (DIBP).

Furthermore, in relation to compliance with the Candidate List of Substances of Very High Concern (SVHC) for authorization published by the European Chemicals Agency (ECHA) (updated November 5, 2026), as well as substances restricted under REACH Annex XVII and listed in Annex XIV (Authorisation List), **PIG 6110 1339 BCO** does not contain any of the substances listed therein in its raw materials. The relevant lists can be consulted at the following websites:

<http://echa.europa.eu/candidate-list-table>

<https://echa.europa.eu/authorisation-list>

Additionally, based on the information provided by our raw material suppliers and our best knowledge of our manufacturing processes, such substances are not expected to be generated during production. Therefore, their monitoring is not part of Resirene's routine production controls. However, while these substances are not intentionally added, the presence of negligible trace amounts in components supplied by third parties cannot be entirely excluded.

This information is believed to be accurate and reliable as of the date of this document and is provided in good faith. However, as conditions of use and applicable laws may vary by location and may change over time, it is the responsibility of the recipient to determine whether the information in this document is suitable for their intended use.

Resirene assumes no responsibility or liability for the use of this information. No express or implied warranty is given or to be inferred by Resirene or its representatives.
